EXPERIENCE

Lead UX Designer
Harman International, May 2023-Present

Senior Product Designer
Engagedly Software India Pvt. Ltd., Nov 2021-Feb 2023

As a Sr. Product designer at Engagedly, I worked closely with the product team to enhance the customer experience by exploring new UI trends, creating wireframes, and mapping out user journeys. As a Senior Product designer, I was responsible for ensuring that all digital products are visually consistent and provide a seamless user experience. To achieve this, I collaborate with developers, product managers, and other designers to develop and implement design guidelines and standards.I created and iterated on wireframes and prototypes, worked closely with the development team to ensure that the final product is intuitive and user-friendly.

Senior UX Designer
Wipro, June 2021-Nov 2021

As a member of the AMG team at Wipro, my primary responsibility is to deliver a world-class user experience for various in-house projects. To achieve this, I participate in usability testing and user research activities, working closely with the target users to understand their workflow, goals, and tasks. Based on these insights, I develop concept designs and create UI designs, using my expertise to craft engaging and intuitive interfaces.

UX/Visual Designer
Wipro Limited (For IDC Technologies Sol. Pvt. Ltd.), Nov 2020-June 2021

During my time at Wipro, I have had the opportunity to work on multiple in-house projects, leveraging my expertise in UX design to create engaging and intuitive user experiences. As a UX designer, my current role and responsibilities involve developing wireframes, site maps, schematics, flowcharts, and working prototypes based on project specifications.

One of my primary responsibilities is providing front-end developers with finalised, detailed design specifications, including assets for direct implementation. This ensures that the design is implemented consistently and accurately, resulting in a seamless user experience.

UX/Visual Designer
Wipro Limited (For HYVA IT Solutions), Oct 2019-July 2020

As a UX/Visual Designer at Wipro, I was responsible for creating all sketches, wireframes, and mock prototypes for Wipro's in-house internal communication web portal, "MY COMMUNICATION." This involved working closely with the development team and stakeholders to ensure that the design met the needs of the organization and its employees.

UX/UI Designer
CAASP Labs Pvt. Ltd., Aug 2014 - Sep 2019

As UI/UX Designer, I had the privilege to work on CAASP Labs's in-house school management software project called EDUCAASP. My role was to create pixel-perfect mocks that met the specifications and requirements of the project. Through my expertise in UI and UX design, I was able to design a user-centered interface that was intuitive, user-friendly, and efficient for school administrators, teachers, and students to use.Apart from working on the EDUCAASP project, I was also responsible for redesigning the company's branding assets such as the logo and website. I made sure that the visual identity was consistent with the company's vision and values. The website's design was modern, engaging, and user-friendly, which helped increase user engagement.Furthermore, I worked on the SEO part to ensure better rankings in all major search engines. This involved creating a user-friendly and engaging interface, optimizing keywords, metadata, and other SEO tactics to increase the visibility of the website.

Web & Graphic Designer
Synchronous Software Solutions, Feb 2012 - May 2014

During my time as a web and graphic designer at Synchronous, I was responsible for creating and coding web pages that met the requirements of our clients. My role involved using a range of technical and non-technical skills to design and produce websites that were visually appealing, functional, and user-friendly.Working closely with the marketing and product development teams, I was also responsible for designing and laying out electronic and print materials for all programs and events. This included flyers, posters, banners, logos, newsletters, and other materials needed to promote events or programs. I ensured that the design and layout of all materials were consistent with the company's branding guidelines and communicated the message effectively to the target audience.To achieve these tasks, I utilized various design software tools such as Adobe Photoshop, Illustrator, and Dreamweaver. I also worked on front-end web development using HTML, CSS, and JavaScript to ensure that the websites were optimized for user experience and met the latest web design trends.
